Introduction

In 1964, Dr. William R.M. Houston, a founder of The Ohio Genealogical Society, created First Families of Ohio. The prime objective of this lineage society is to identify and honor the earliest pioneers in what is now Ohio. Over the past thirty-six years, Dr. Houston has been succeeded as FFO chairman by William J. McIntosh, Dr. Hartien Ritter, Tacy Arledge Lewis, and Amy Johnson Crow. As the number of proven ancestors grew, Carol Willsey Bell produced several indexes to the data files. Additionally, each year's new FFO members and their ancestors were published in the summer volume of *The Report*, an OGS quarterly publication.

The Ohio Genealogical Society presents this new publication containing an updated and corrected roster and three indexes to the First Families of Ohio files. This volume supercedes previous indexes and rosters. It contains 3,351 members who have proven 9,999 ancestors. The editors have carefully checked the data against the original files and have corrected all known errors and omissions from previous indexes.

Researchers may access First Families of Ohio files at The Ohio Genealogical Society Library. The Society has a research policy and fee for by-mail search requests of their holdings. Contact OGS headquarters in Mansfield for further information. Researchers may visit the library in person Tuesday through Saturday from 9:00 until 5:00. There is a library use fee for non-OGS members. For preservation purposes, First Families of Ohio records are regularly microfilmed at The Center for Archival Collections, 5th Floor, Jerome Library, Bowling Green State University, through the courtesy of the Church of Jesus Christ of Latter-day Saints.

Any member of The Ohio Genealogical Society who is a direct descendant of an individual who settled before 1821 in the area now known as the State of Ohio may become a member of this lineage society upon the acceptance of an application with proof of such descent and payment of the current application fee. Rules of evidence for proving descent appear on the next two pages.

First Families of Ohio members numbered 1 to 3,351 may submit corrections to this publication. Send corrections to First Families of Ohio Chair, The Ohio Genealogical Society, 713 South Main Street, Mansfield OH 44907-1644. Ohio Genealogical Society members may obtain FFO membership applications from the same address.

RULES OF EVIDENCE

The rules of evidence applying to membership in FIRST FAMILIES OF OHIO follow and are the standards by which all FFO proof is judged. *There are no exceptions.*

The nature and extent of the evidence submitted as proof in all applications shall be sufficient to prove that the applicant is directly descended from the pioneer(s) named in box B of the FFO application blank, and sufficient to differentiate between any two persons of the same name residing in the same area at the same time. Proof must be included to show residence in Ohio by 31 December 1820. Documentation MUST be provided for each date listed, even if only an approximation (e.g., born c1785-1790 per 1820 census).

BASIC RULES

1. **Primary or collateral evidence from vital statistics, courthouse or other government records, usually is considered excellent proof. Other primary evidence might include Bible records (which must be contemporary with the publication date of the Bible or events), diaries or letters.**

2. **Secondary evidence such as census records and newspaper clippings (applicant must give the name of the newspaper, location, page and date of publication) might be used as corroborative evidence. County histories and family records CONTEMPORARY TO THE FACTS REPORTED are considered as supporting evidence only.**

3. **Circumstantial evidence WILL NOT be accepted as proof unless supported by primary or secondary evidence.**

4. **Oral, written, or published family traditions may be in error and CANNOT be accepted as documentation.**

5. **Printed or manuscript genealogies, genealogical records or compilations, family group sheets and charts, family reunion records and similar material are not considered proof. Unsupported information from an amateur or a professional genealogist is not acceptable, including such records printed in any genealogical, historical or similar publications.**

6. **Lineage papers, accepted or unaccepted, from other patriotic or hereditary societies by themselves are not considered proof. The document copies which were used to prove the lineage MIGHT be considered proof for FFO if they follow these rules.**

7. **Material authored by the applicant or a member of his or her family cannot be considered as proof.**

8. **Documents used as proof must, either alone or in conjunction with other acceptable documents, actually STATE THE FACT TO BE PROVED.**

Examples of implied proof which are not acceptable are:

A. **Unnamed individuals specified in court records as "heirs" or "heirs-at-law" unless it is known that applicable laws at the time included only bloodline descendants.**

B. **Census records which show the name of the head of the family only, along with numbers of family members or others by age group, prove only the family head actually named. The 1850 through 1870 census cannot be used as proof of relationship. Next door neighbors on a census or tax record do not prove any relationship by themselves.**

C. **A father is not proved as being in an area just because his child was born there. The birth only proves the mother was there!**

D. Blood descent is not necessarily proved by owning the same land as an earlier owner by the same name, whether the land was inherited or purchased.

9. Documents written or printed in a foreign language must be accompanied by a translation into English and the translation certified as a "true translation" by the translator (not the applicant or a family member).

10. Old letters or family records can be accepted as proof for only the facts that the writer could logically know as CONTEMPORARY KNOWLEDGE. Identification of the writer and the date is necessary. County histories or other published biographies also should have been written by someone with contemporary knowledge, not hearsay, to be acceptable.

11. Land or tax records are acceptable only if they specify that the individual was a resident of Ohio, since many early landowners and speculators never lived in Ohio.

12. Female ancestors living in Ohio before 1821 must be identified by their maiden names. Exceptions are made only in the case of blacks and American Indians, and only when such ethnicity is proved.

13. Illegitimacy is not grounds for denial.

14. A direct line from applicant to pioneer ancestor must be proved at each step, including the spouse in each generation. Collateral descent is not applicable. Adopted children do not qualify as a step in lineage. Blood line descent only is acceptable.

15. Proof is required for each date listed for both persons in each generation. All documents must include a full citation. The title, volume and page number must be written on the copy itself. Bible records must include a photocopy of the title page with publication date and current owner's name and address.

16. Photocopies of original documents are acceptable as copied if there are no changes on the original. If it is not possible to make a photocopy of a document, a typed or handwritten copy of the document must be certified as a "TRUE COPY" by a courthouse or other official, librarian, etc. An applicant or member of his or her family cannot certify a document as a "TRUE COPY."

17. Married female applicants, who use their husband's surname, must include a copy of their marriage record to document their change of name. Each legal name change must be documented.

18. Photographs of tombstones are acceptable for proof of birth and death dates and for relationships actually stated on the stone. Published compilations of tombstone readings are acceptable if no additional information has been written in that is not on the stones themselves.

19. If an ancestor has been previously proved by another individual, the applicant may submit proof only to the nearest common ancestor, if so desired. A citation to the name and number of the FFO member must be included.

20. Deadline for applications is December 31 of each year.

21. Reminder: a statement is not necessarily true just because it's in print.

Key

Names or dates with a + following indicate that more spellings for that surname, or additional dates, may be found in the FFO member file.

Names with **-1**, **-2**, etc., indicate a fairly common name and are used to differentiate between several ancestors of that same name.

Spouse names with **(1)**, **(2)**, etc., indicate multiple spouses for that FFO ancestor.

The FFO Ancestor Roster contains columns for:

- ★ FFO Ancestor
- ★ Ancestor Number
- ★ Date first proven in Ohio
- ★ County of residence (four letter code)
- ★ Year of birth
- ★ Year of death
- ★ Spouse
- ★ Spouse's ancestor number, if any
- ★ FFO number (Application packets are filed by this number)

The Non-FFO Spouse Index contains spouses of FFO ancestors that have not been proven as FFO ancestors themselves. Only spouses with surnames have been included.

All other sections of this book appear in either alphabetical or numerical order and no key is needed to understand the information presented.
